

Equality & Human Rights Commission

~~ANNUAL REPORT FOR THE YEAR 2018-19~~ ANNUAL REPORT FOR THE
YEAR 2018-19

ORGANISATION OVERVIEW & PERFORMANCE

INTRODUCTION

This has been our busiest and most successful year yet. Alongside all of our usual work, The Commission held its first Official Inquiry, the Inquiry into the Condition of Detention of Prisoners in HMP Jamestown. This was not only a first for St Helena but also the first official inquiry carried out by any human rights institution in a British Overseas Territory. The Commission would like to thank everyone involved in the Inquiry particularly the Prisoners, Prison Management and staff and everyone who gave their time to give evidence to the inquiry. Special thanks go also to the Elected Members for granting the additional funding required.

Other highlights of the year include:

- 1) The Bare Necessities – this second report looked at the cost of buying the very basic everyday items that people need to survive and compared this to the social benefit payments. For the full report see page 11 or go to our updated website <http://humanrightssthelena.org/barenessesityreportsept2018.pdf>
- 2) The CEO attended the first same sex marriage to be held following the passing of the Marriage Ordinance Amendment at the December 2017.

ROLES & FUNCTIONS OF THE COMMISSION

Staffing

This has been a year of change, growth and development as the Commissioners have grown into their roles. Last year each Commissioner selected a theme on which to lead.

Cathy Harris Cranfield is Chair of the Commission and takes the lead on disability issues.

Danielle Anthony was Deputy Chair and our Commissioner for Children's Rights.

Janine Egan continues to reside in Malta, and continued in her role as a Commissioner, advising remotely and joining us on Skype. She is developing our support and information network overseas.

Our guiding purpose is to:

Build on Saint Helena's progress towards becoming a fairer society

Focus on immediate issues as they arrive

Ensure the positive progress already achieved does not stall

Challenge regression from human rights standards

Seek sustainable improvements to economic social and cultural rights as the island's economy grows.

Work for inclusion and equal opportunity for all

Barry Francis is our Commissioner with responsibility for Police and Prison matters.

Catherine Turner, Chief Executive Officer/Commissioner (Ex-Officio) is responsible for the strategic management of the Commission and leads on Gender issues.

Carol Thompson has met the challenges of her new role as Executive Manager developing the administration of the office, policy and procedure assisted by Phyllis Coleman our Administrative Assistant.

In October 2018, we were very pleased to work with the Education Directorate to offer an apprenticeship to Nicole Paulsen. Nicole has shown an interest in human rights having joined us for work experience on many occasions while in school.

Commissioners and staff are constantly undergoing training and development, which, this year has included the MOOC Diploma in Human Rights via distance learning and various on-line courses offered by the United Nations.

The Commission has worked hard to develop a robust set of policies to underpin our work. These are available to the public via our new website along with the register of Commissioners Interests and all other public documents. See www.humanrightsthelena.org

We aim to achieve full confidentiality for our clients while being open and transparent about the Commission itself.

PERFORMANCE ANALYSIS

HIGHLIGHTS

The Statistics

The Commission has improved its database and statistics reporting ability this year. In previous years, our software only allowed comparison year by year of all open cases whether they were opened in that year or in the years prior. Because human rights issues can take a long time to resolve, or go through multiple stages, this does not properly, reflect trends. Throughout this report, the figures quoted are only for cases opened within the year stated. In addition, please note that where a client has more than one issue each theme is recorded.

This year we have seen fewer people contacting the Commission but the complexity of their problems has increased. This is because more people understand which issues the Commission deals with, therefore they now rarely come to us with complaints about disputes with neighbours or rude staff. They do come with poverty and debt issues, serious housing problems, homelessness and where they cannot find anyone else to advocate for them.

We no longer have long-term clients (clients in SHG run, care facilities without the capacity to advocate for themselves) as the Public Guardian has taken over that role.

Many of our clients needed help at least in part from other services this year or clients were sign posted/referred as in fig. 1 below.

Referrals

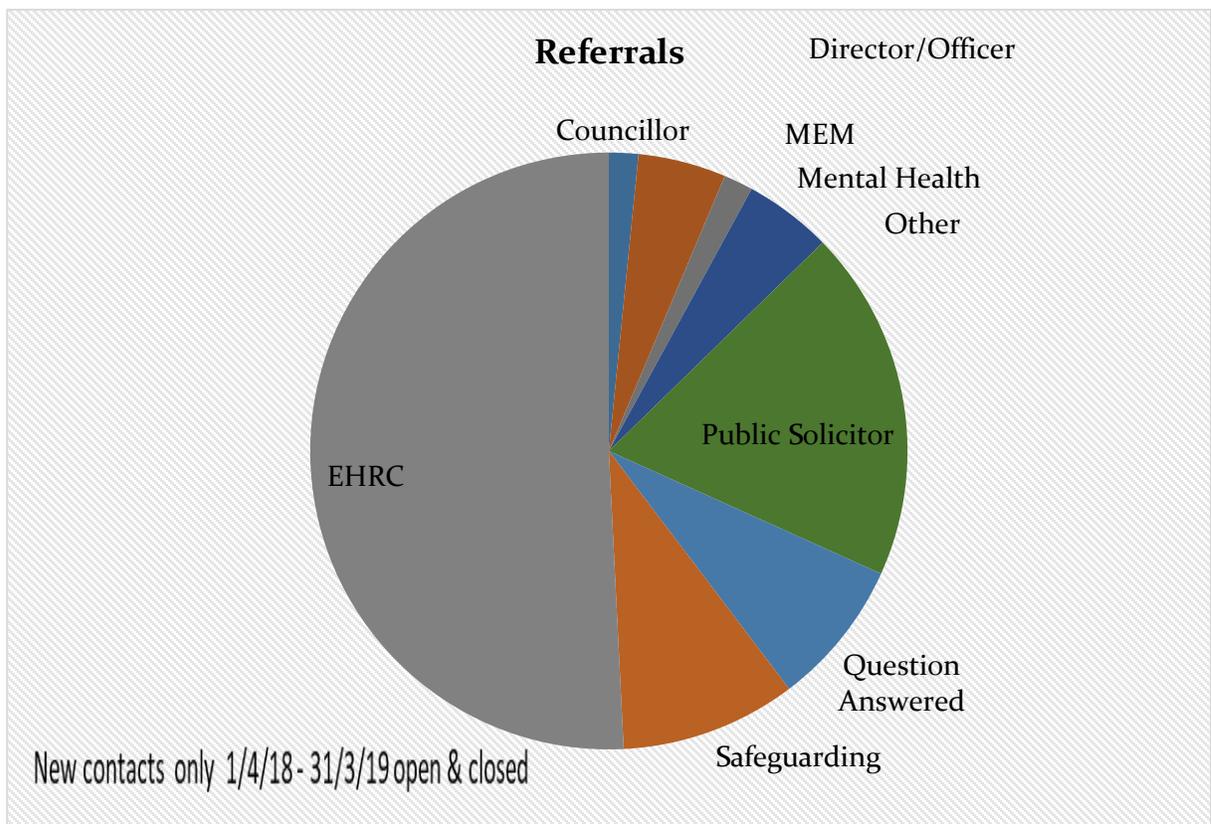

Fig 1.

As fig. 1 (above) demonstrates, the Commission is able to address the issues and/or immediately answer the questions of the majority of its contacts. The rest are referred to the relevant agency. The majority of those contacting us are St Helenian by either birth or status.

The Commission would like to thank all those that we work with for their help and support throughout the year and in particular the unfaltering assistance from the Public Solicitors office and Safeguarding (Now Children & Adult Social Services Directorate).

Themes

The issues raised have ranged from homelessness and prison conditions to the need for independent complaints procedures. As is demonstrated in the chart below, some key issues come up repeatedly.

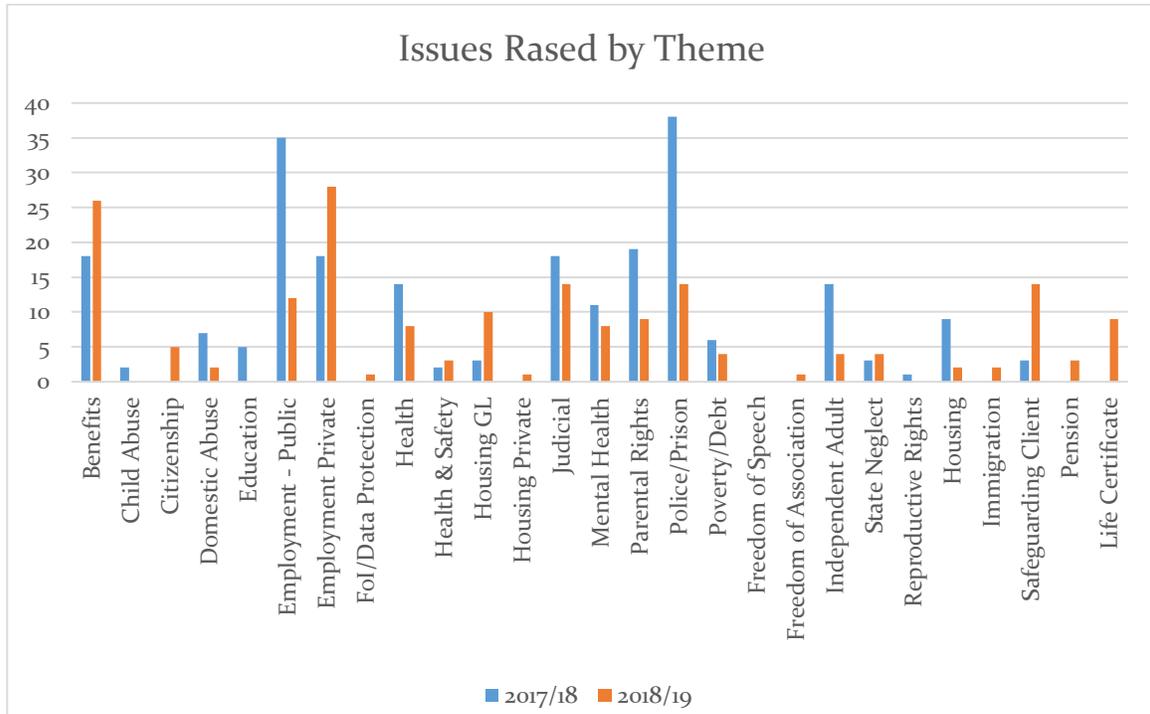

Fig 2.

Areas of Concern

PRIVATE SECTOR EMPLOYMENT

While there has been a welcome and dramatic decline in the number of people raising issues about their employment with SHG, there has been a significant rise in complaints about the private sector. The issues all stem from a lack of compliance with the Employment Rights Ordinance. Many do not have a contract or receive pay slips; there are dismissals without due process and no appeals procedure. The individuals affected are unwilling to take action through the Labour Regulating Authority (LRA) as they fear difficulties getting another job and being branded a ‘troublemaker’. Work on this is being progressed with the Social & Community Development Committee. Several meetings took place with the Social Security Review Working Group (SSRWG) to provide them

with the evidence we had collected and to review the calculation of the Minimum Income Standard (MIS). Where we identified new issues or problems with the current benefit system we passed the anonymised details on to the SSRWG.

THE PRISON

This year we have had a marked decline in the number of complaints about prison conditions. The Commission's inquiry into the prison conditions and a change in management have both had a part to play in this. The new Prison Manager has a positive communication style, which is appreciated and respected by the prisoners even when they do not get what they want. The introduction of access to email and distance learning is also to be applauded.

As a result of the Inquiry work has been carried out to improve fire safety, ventilation and lighting within the prison which formed the basis of most of the previous complaints.

Never the less, the Prison, while much improved is not, and in the Commission's opinion, never will be, fit for purpose as it cannot offer properly segregated facilities, adequate outdoor space or facilities for work and study. The Commission cannot recommend strongly enough that a new prison is built as soon as possible.

HOUSING & HOMELESSNESS

We have a shortage of Government Landlord Housing and much of what we have, has not been adequately maintained over the years so it falls a long way below an acceptable standard. A work programme has been underway to upgrade the housing stock but there has still not been a new GLH built. The problem is growing and this is reflected in the increase in the number of people coming to the Commission. Of particular concern are:

- Elderly and or disabled people living in housing which they cannot get in and out of due to steps or move around in easily due to lack of space for walking aids and wheelchairs or steps up to the bathroom.
- The lack of maintenance to some GLH is also a cause for concern and is affecting the right to private and family life, particularly in the Ladder Hill Complex and RE Yard.
- The Island needs some basic emergency accommodation to house people short term when legal restrictions or other emergency issues prevent people from living in the family home.

The Commission is **still** concerned about the lack of adequate fire escapes in the multi-story flats in Jamestown with a single point of entry. This clearly has implications for the tenant's right to life. While the right to adequate housing is an aspirational right under the International Covenant on Economic, Social and Cultural Rights (ICESCR) the European

Courts have found that housing which does not allow people access to the toilet and washing facilities is a breach of Article 8, the right to private and family life.¹

POVERTY

The EHRC is concerned about the ability of families on low incomes to afford their utility bills and pay their rent, childcare and other bills. Requests are regularly being made to Making Ends Meet, The Salvation Army and others for assistance. It is our belief that the Household Income restriction on benefits is having an adverse effect on the lives of many despite the much-needed changes made in October/November 2017.

The increased costs of living due to the increase in freight costs and the problems experienced by low-income households resulted in the Commission publishing its report "The Bare necessities" in September 2018 (see Annex 1 and available here <http://humanrightsthelena.org/barenessesityreportsept2018.pdf>)

EMPLOYMENT

There has been a huge increase in the number of people contacting the Commission on employment issues. While there has been a marked decrease in the number of SHG employees asking questions the number of private sector employees with problems has gone up by more than a third. This is because

1. The Employment Rights Ordinance does not adequately protect people from bullying, harassment and discrimination;
2. It provides for contracts, payslips, minimum wage etc. but this is ignored or not understood by employers;
3. While remedy is available through the Labour Regulator most of those that come to us do not wish to go that route as they are concerned about the long-term effects on their employability.

Several ideas have been put to the SCDC including changes to the SHG procurement policy/procedure and updating the legislation to protect employees and give the Labour Regulating Committee more powers of investigation, as at the end of the financial year nothing had been actioned.

1. In R (Bernard) v Enfield London Borough Council [2002] EWHC 2282 (Admin), [2003] HLR 27, High Court Held that the refusal of Enfield Council to provide suitably adapted accommodation for a disabled lady and her family who were living in unsatisfactory accommodation (the lady could not access the upper storey where the bathroom was) was a breach of the claimants Article 8 (Clause 13) right to private and family life.

INTERACTION WITH STAKEHOLDERS/COMMUNITY ENGAGEMENT

Media & Information

The CEO and Commissioner Barry Francis were interviewed on Radio and articles have appeared in both newspapers about the Commission in general and specific issues, for example children's rights.

The EHRC has a varied array of books and DVDs available for lending and information leaflets for taking.

Financial Position

The Bare Necessities

Equality & Human Rights Commission

~~ANNUAL REPORT FOR THE YEAR 2018-19~~ ANNUAL REPORT FOR

Introduction

The Equality and Human Rights Commission continues to be contacted by people who struggle to meet their living costs. The majority of those affected are the vulnerable: the unemployed, pensioners and low-income earners with young families are a few. The causal factors are; the cost of imported goods, the world's most expensive electricity and comparatively low local wages. Since the RMS was decommissioned and another ship chartered to bring in our goods and general cargo, prices have reportedly "gone through the roof".

The review of the household income policy and minimum income standard has made no change to those struggling to buy the essentials to live.

In evidence in a recent court case, the then SHG statistician gave evidence that the cost of living on St Helena is 25% higher than that in the UK and the wages are approximately one third.²

The introduction of air access and Brexit looming indicate more changes for St Helena. Whilst it was hoped that air access would boost the economy and improve the quality of life for everyone, this has not happened so far. It is very likely that the effects of Brexit will have an impact on our living on St Helena. The gap appears to be widening between the better off members of our society and the poorer, more vulnerable.

Most of those that contact the EHRC do so because they have reached the point where they cannot afford to buy basic food and hygiene items needed to survive and maintain ones' dignity. The Charity Making Ends meet is often contacted by EHRC to assist those in dire need. Other charities e.g. The Disabled Persons society have been contacted for assistance. It is a reality that people are struggling to pay their debt due to extremely low income. This is a situation that affects the dignity and worth of those living with poverty and debt on Island.

The EHRC have once again attempted to answer the question how much does it really cost to provide the very basic food and hygiene requirements on St Helena.

We acknowledge the input into the report by Prince Andrew School work experience students Chloe Midwinter and Nicole Paulsen.

Methodology

The EHRC will be the first to admit that none of us are trained or qualified statisticians, however we are all human beings, who live alone or in family units and eat, wash and function like everyone else. So we used our 100 plus years' experience of living and shopping on St Helena.

²Supreme Court of St Helena 21st February 2017

1. We reviewed our list of all the basic items we would need to feed ourselves and our families and keep clean.
2. We did not include preferences of food (for example while some prefer red tea or green tea we only included black tea on the list as, although having a choice is nice – you only need one). See appendix 1
3. We collected prices for the cheapest option on all items listed at appendix 1 from retail outlets, Solomon's, Thorpe's and Rose & Crown. These three retailers have shops in the country areas. We took an average of their prices at 1st September 2018.
4. A calculation was then made of the amount of each item on the list that would be used in one week by:
 - a. A single person
 - b. A family of 4
 - c. A family of 6
 - d. An unemployed or retired couple
 - e. A couple with a baby
 - f. A single person with a baby
5. We then included an estimate of the cost of electricity and water based on information from Connect.
6. We added in Government Landlord Housing rent as this is the cheapest, for those people in their own housing this would not be an unreasonable figure to cover very basic maintenance.
7. Public transport costs for one trip to town for shopping were included but no allowance was included for home to duty transport or the cost of running a car.

Only the basic living items were included in calculating the living costs. Many items such as, medication, special dietary food, replacement household items and clothing were not included but could be determined as essential to live a comfortable life. (See appendix 2). We also excluded items which are important to health (cabbage and broccoli for example) but are just too expensive on anyone's budget.

These calculations do not include any child minding costs, internet, telephone, alcohol, tobacco, TV service or other entertainment.

Results

During the period (June – August 2018) we were working on this project, the chartered ship had arrived on about 3 occasions with food and other supplies. It was noted by various customers that each time food items were placed on shop shelves the prices had increased. In addition, certain food items were running short between shipments.

The table below shows an average of how much it costs to subsist on St Helena (column 1). Column 2 shows the current maximum Income Related Benefit (IRB) and Column 3 shows the maximum Basic Island Pension (BIP) available.

	Cost per week August 2017 £	Cost per week August 2018 £	SHG MIS 2018 (without rent)	BIP ^(note 2)
Single person	89.70	93.54	67.86	70.20
Family of 4	262.03	275.81	162.03	
Family of 6	290.74	310.34	209.53	
Retired/unemployed couple	123.10	118.93	107.75	
Couple with baby	178.89	165.34	134.89	
Single person with baby	145.25	134.60	95.00	

Note 1 - In addition to the IRB claimants receive 100% payment of rent for Government Landlord House, up to £33.36 per week for private renting or 100% of the interest on the loan paid for the property they are living in.

Note 2 - The maximum Basic Island Pension after 30 qualifying years is £70.20 per week, many do not qualify if they have spent time overseas, or time unemployed; 25 qualifying years is 75% of the full value of the pension and 20 qualifying years is 50% of the full value of the pension. Less than 20 years does not qualify for Basic Island pension. All persons who are in receipt of Basic Island Pension will receive free prescriptions.

Comments

It is clear from these figures that anyone without savings or help from family and friends who has to live for a protracted period of time on a BIP or IRB is going to be unable to make ends meet. As stated above nothing has been included in here for clothes so any additional purchase like school shoes, replacement kettle or medical bill is going to cause more problems for those already suffering real hardship.

Since the RMS was decommissioned and the MV Helena contracted to bring in supplies there has been noticeable increase in all imports. In a press release it was confirmed

that the increases in freight and bunkering are beyond the control of St Helena Government and there is no subsidy for the MV Helena. A quote from the press release on 14 August 2018 says *“The public should also note that whereas previously the RMS **freight** service was subsidised, the MV Helena service is a purely commercial enterprise and receives no subsidy.”*

It is hard to understand how we can achieve the goals in the 10-year plan of St Helena being

- Altogether Safer
- Altogether Healthier
- Altogether Better for Children and Young People
- Altogether Wealthier

when our most vulnerable cannot afford to maintain their homes and equipment, pay for prescriptions and medical tests or feed their children.
